

The 15th National Games

Registration and Ticket Purchase Guide

Hey there! Ready to score some event tickets for The 15th National Games?

This guide will walk you through the entire process (in English), step by step, from registration to ticket purchase. We'll start with the Chinese buttons (super easy!), then switch to English using browser translation techniques to ensure a smooth transition. We'll also include a "Captcha Translate" extension to verify your phone number. Let's get started!

<https://ticket.baygames.cn/>

Before we begin, let's first ensure the browser extension is set up. If you haven't installed Captcha Translate yet, please follow the steps below to install and configure it.

Install and Configure Extension

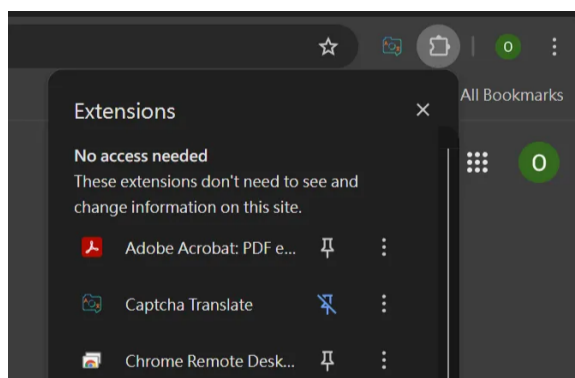

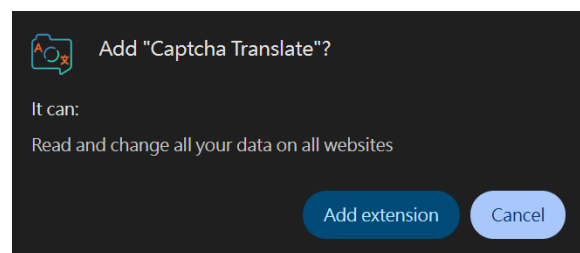

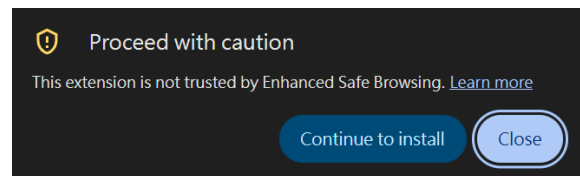

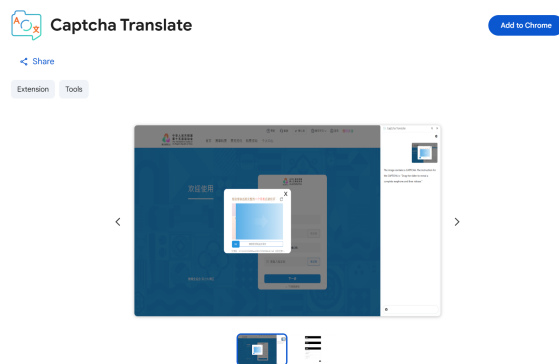

1. Search and Install the extension

You need the Captcha Translate extension to handle reCAPTCHA translation in English and it is available in Chrome, Edge and Firefox. Go to browser extension store and search for "Captcha Translate" or use these links to install:

Chrome Web Store ([Download here](#))

You may see the alerts. It's because the extension needs to take a screenshot of your browser's screen, so it will sound an alert to remind you.

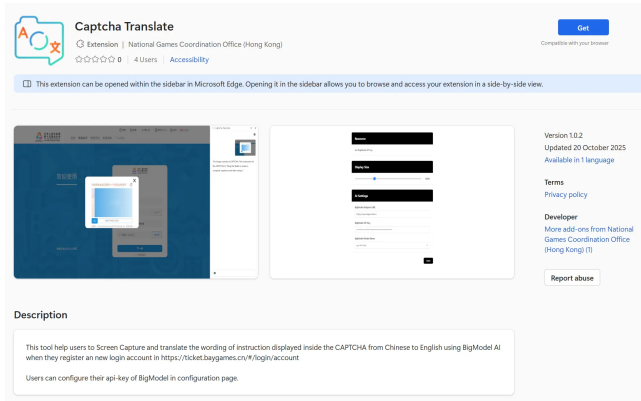

Manage extensions in the upper right tools menu and you can pin it for easy access

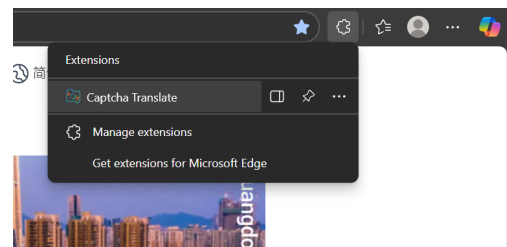

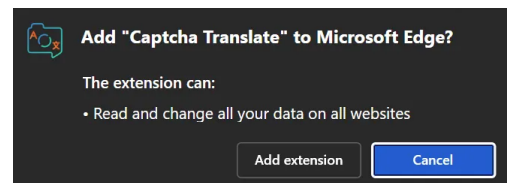

Microsoft Edge Add-ons ([Download here](#))

You may also see the same alert as Chrome. It needs to take a screenshot of your browser's screen, so it will sound an alert to remind you.

Install the extension

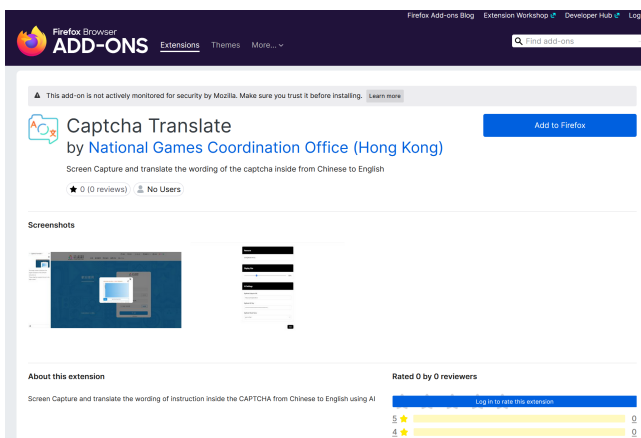

You can find it similar to chrome in the upper right.

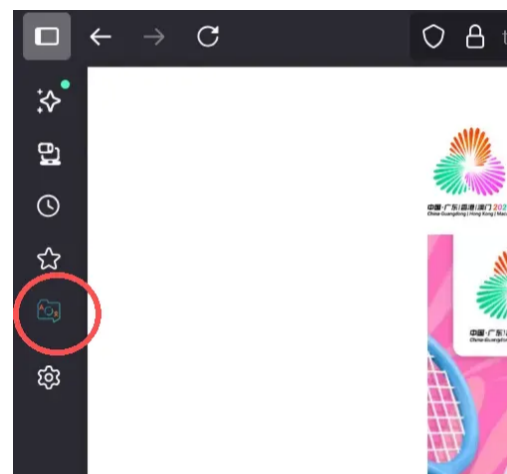

Firefox Browser Add-ons Manager ([Download here](#))

After adding the Captcha Translation extension, You can find the extension button in the left hand sidebar (Show sidebar ALT + CTRL + Z)

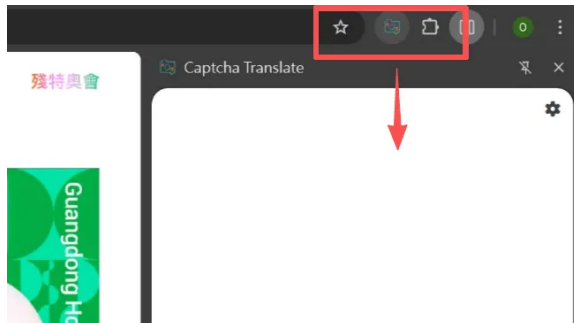

You may also see the same alert.

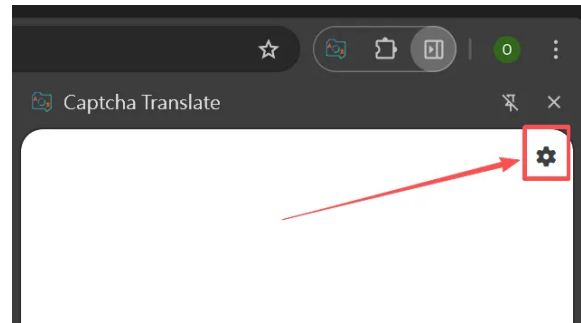

2. Configure the Captcha Translate Extension

2.1. Open your Captcha Translate browser extensions in toolbar menu.

Using Chrome as a reference

2.2. Click the extension and hit the  button for setting

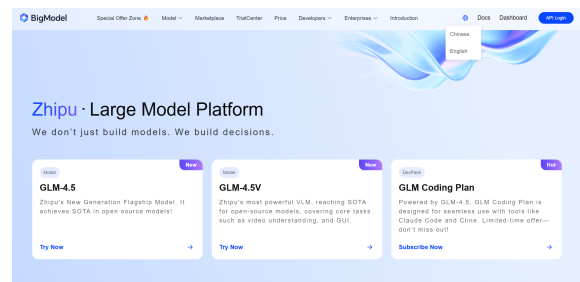

Find the gear icon ()

2.3. In the Settings menu, go to the "Resource" section. And click "Get BigModel API Key".

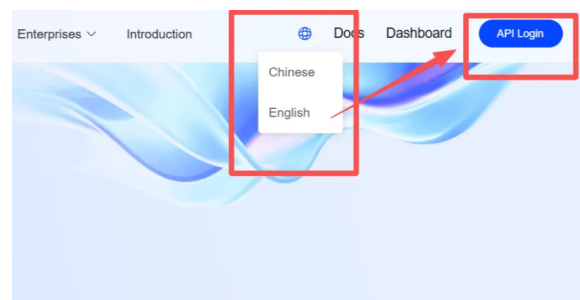

2.4. You'll be redirected to <https://open.bigmodel.cn/> and you will need to create an account here.

Zhipu AI official website

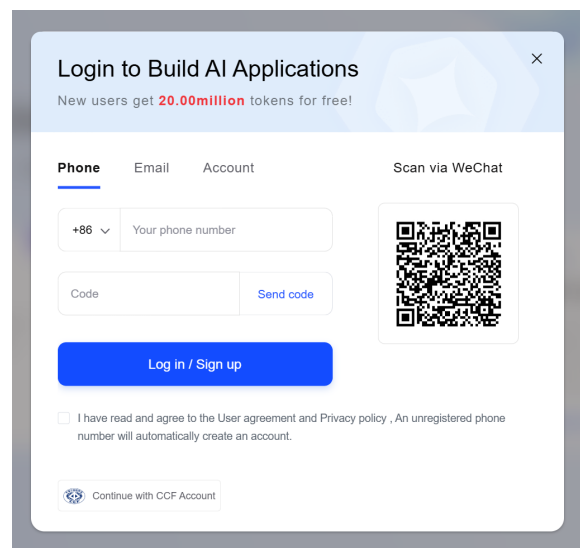

2.5. Click the language  button (usually upper-right) and switch to English.

2.6. Click the [API Login] button to register a new account.

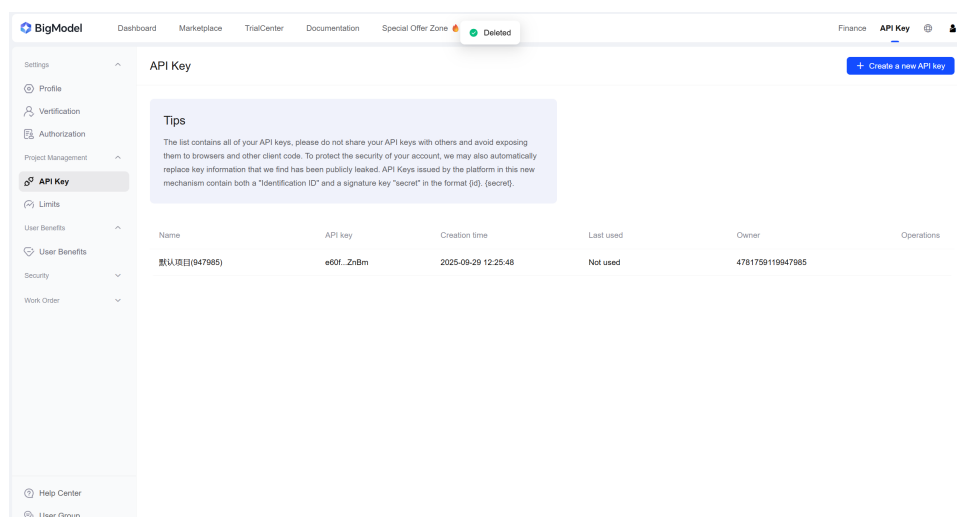

2.7. You can use your phone, email, or scan via WeChat for quick sign-up.

2.8. If registration is successful, a "Please submit your information" prompt may appear—feel free to skip it.

The image shows a login form titled "Login to Build AI Applications". It features a header with a close button and a promotional message: "New users get 20.00million tokens for free!". Below the header, there are four tabs: "Phone", "Email", "Account", and "Scan via WeChat". The "Phone" tab is selected. It contains a dropdown for the country code (set to "+86"), a text input for "Your phone number", a "Code" input field, and a "Send code" button. To the right of the "Phone" tab is a QR code for WeChat login. At the bottom of the form is a large blue "Log in / Sign up" button. Below the button is a checkbox for agreeing to the User agreement and Privacy policy, with a note that an unregistered phone number will automatically create an account. At the very bottom, there is a link to "Continue with CCF Account".

2.9. On the BigModel profile site, click the "API KEY" button in the left menu bar and find the [Create a new API Key](#) on upper-right

The image shows the "API Key" management page in the BigModel interface. The left sidebar contains a menu with "API Key" selected. The main content area has a "Tips" section and a table of API keys. The table has columns for Name, API key, Creation time, Last used, Owner, and Operations. There is one key listed with the name "默认项目(947985)", API key "ed0f...Zs8m", creation time "2025-09-29 12:25:48", last used "Not used", and owner "4781759119947985". A "Deleted" status is shown above the table. In the top right corner, there is a button to "Create a new API key".

Name	API key	Creation time	Last used	Owner	Operations
默认项目(947985)	ed0f...Zs8m	2025-09-29 12:25:48	Not used	4781759119947985	

2.10. Give it any name you want (it's just a reference), and click "Yes" to Create the New key.

Create a new API key

×

Please enter an API key name to differentiate the API key

API key name

No

Yes

2.11. Copy the newly created API Key from the key list.

Name	API key	Creation time	Last used	Owner	Operations
默认项目(947985)	e60f...ZnB	2025-09-29 12:25:48	Not used	4781759119947985	
testing	0f74...K0CV	2025-09-29 17:21:08	Not used	4781759119947985	Delete

Mouse Hover and Copy.

2.12. Back in the "Captcha Translate" extension's Settings, go to the "AI Settings" section:

- Paste the key into the "BigModel API Key" field.
- For the "BigModel Model Name," select "glm-4v-flash" (it's free).
- Click "Save" to lock in your settings

Save

You're now ready to tackle reCAPTCHA and image translation!

B. Signing Up NEW Account

Now that you've got the [Captcha Translate](#) extension set up, let's jump into creating your account. We'll start with a few Chinese buttons and then switch everything to English for a seamless sign-up flow.

1. Visit the Website

Open your browser and head to <https://ticket.baygames.cn/>.

The site will likely load in Chinese at first, but don't worry—we'll make it English-friendly soon!

- Find the Chinese "Sign In" Button, check this screenshot to spot it easily:

Look for the button on the navbar at the upper-right side of the homepage.

2. Navigate the Chinese Login Page

You'll land on a login page in Chinese.

- Find the button at the **bottom-right** (labeled on the screenshot) to access the sign-up form. Click it to move forward.
- Then, select your phone's country code and we'll start translating into English in the next step.

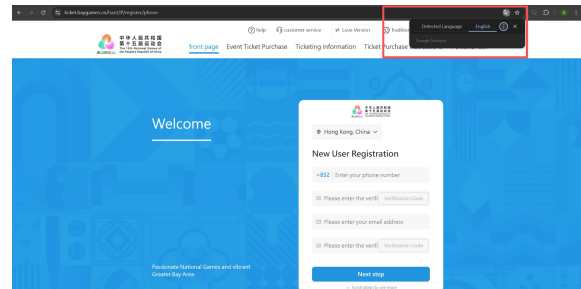

3. Translate the Website to English

Now that you're on the sign-up form, let's make it English-friendly. Use your browser's translation feature (*Different browsers may use different English terms, but the meaning is the same*)

3.1 For Chrome user, find the Translate button in menu and choose the language.

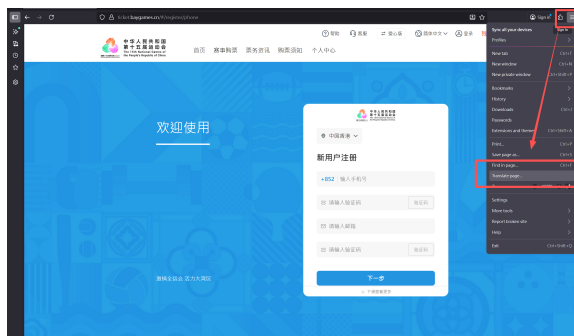

Click the three-dot menu (usually top-right) and select **Translate**.

Choose English, and the entire page will switch to English.

3.2 For Firefox user, find the Translate page.. button in menu and choose the language.

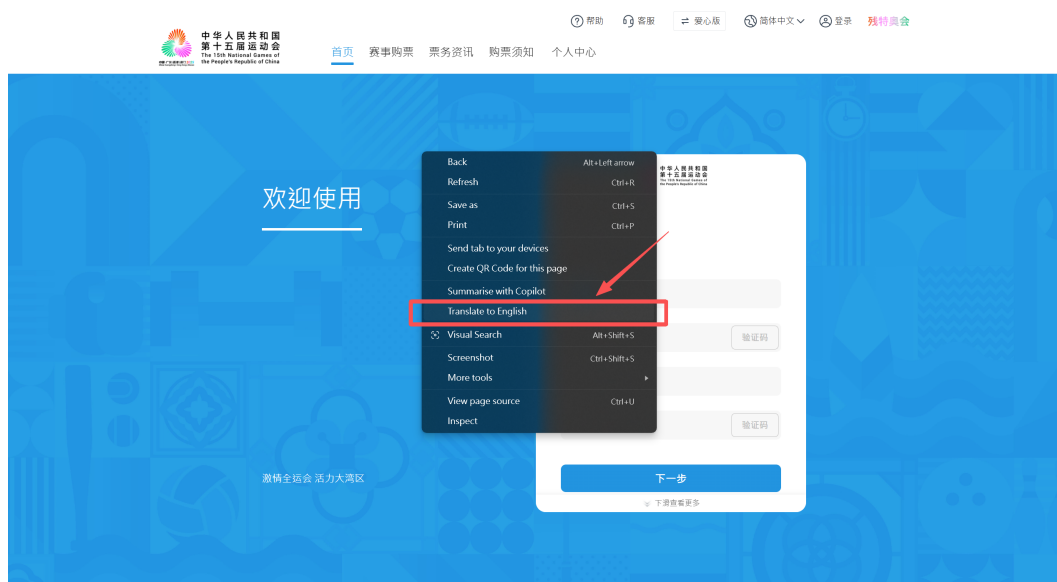

Click the menu button (usually upper-right)
and select **Translate page..**

Choose Translate from Chinese and
Translate to English, and the site will switch
to English.

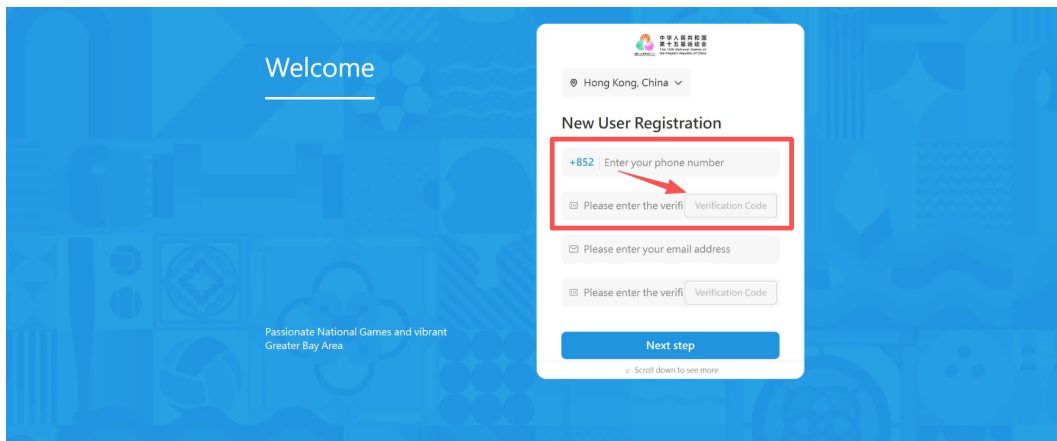

3.3 For Edge user, mouse right click and choose Translate to English.

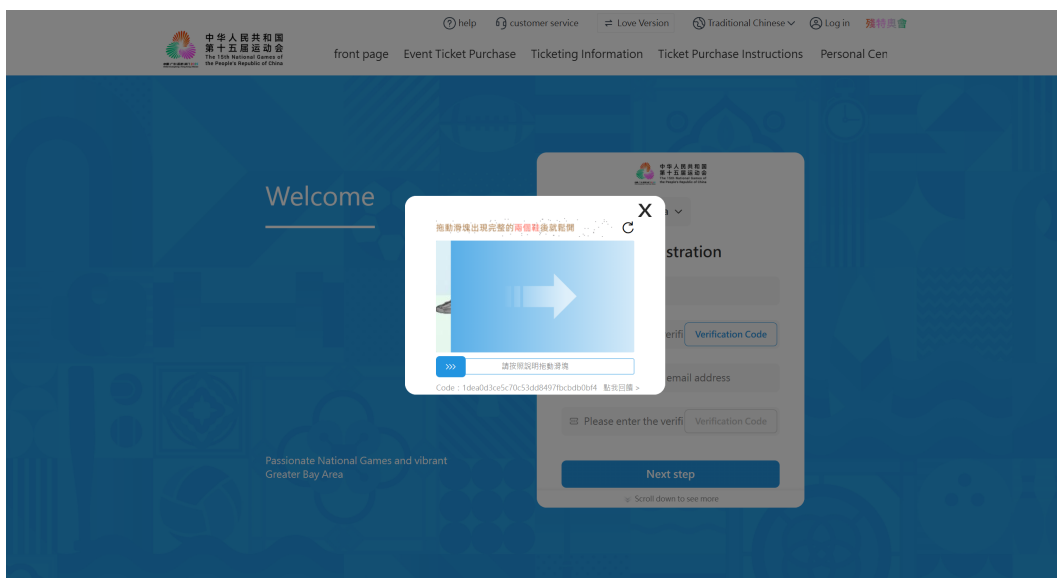

Right click and select Translate to English (Language base on your browser setting).

4. Enter Your Mobile Number

Now translated into English, you can register your account. But the reCAPTCHA still in Chinese...

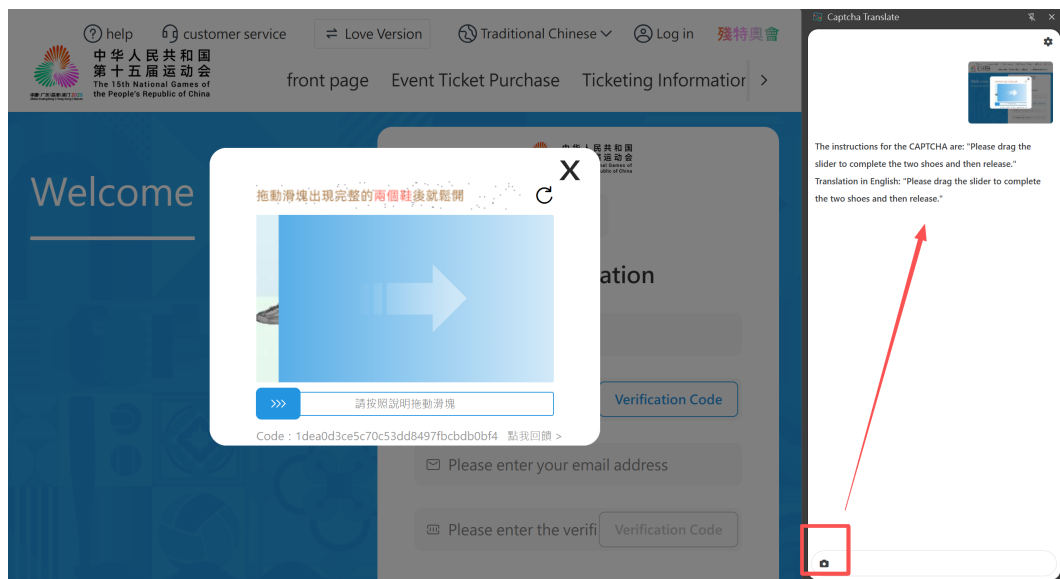

Type your mobile number and click the [Verify Code] button.

A reCAPTCHA will pop up to confirm you're not a robot, but it may not be automatically translated using your browser's translation function.

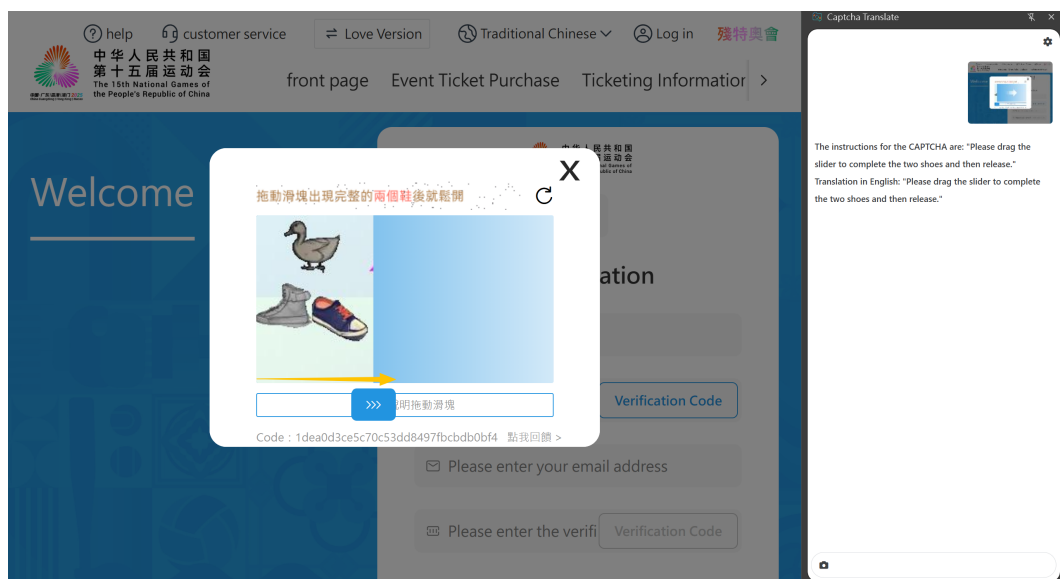

5. Handle reCAPTCHA in English

- You need to follow these TWO steps to pass reCAPTCHA:
 - Use the **Captcha Translate** extension by clicking camera icon at bottom.

It'll use AI to auto scale up , scan the screen and translate the instructions into English.

- Follow the translated prompt to pass it

e.g., Please drag the slider to complete the two shoes and then release.

6. Verify Your Mobile

After clearing the reCAPTCHA, you'll get an SMS with a verification code within a minute.

Enter the code you receive via email and [Next step].

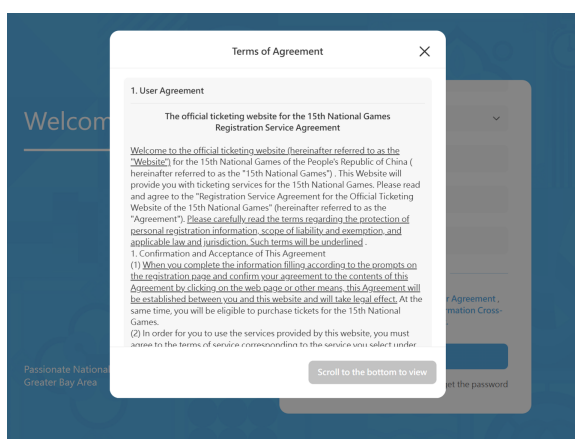

8. Setup login password and Fill in Personal Info

Enter a new password and add your details (like name, document info) in the form.

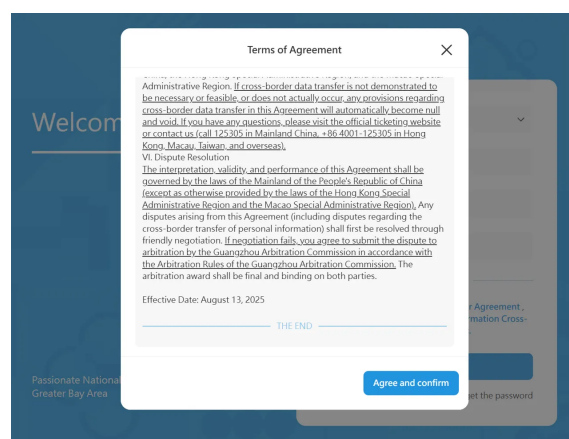

9. Read the Terms and Conditions

At the bottom, you'll see the Terms and Conditions (T&C). Scroll through to read them, then **Agree and Confirm**.

If you have not read the terms and conditions, this button will be disabled

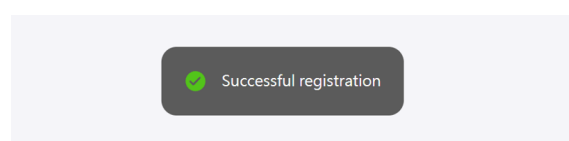

Now, the button enabled.

10. Submit and Register

Hit the Submit button. If everything's good, you'll see the message:

 **Successful Registration**

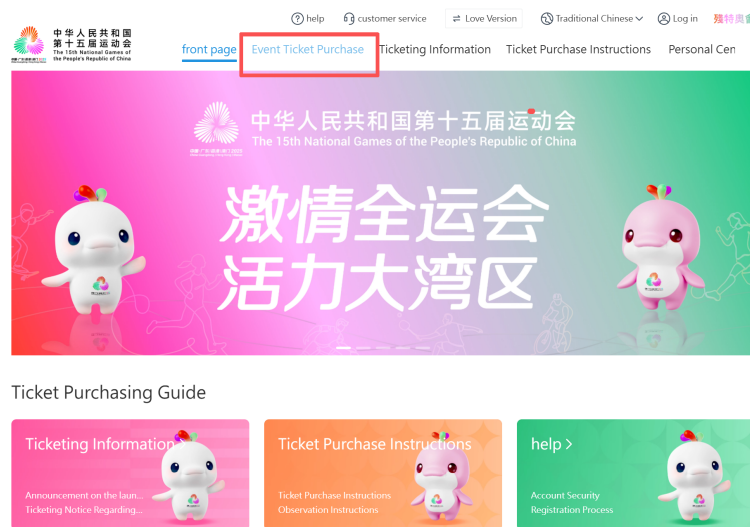

And the site will redirect to the homepage.
You're officially in!

C. Finding and purchase the sports event

Now, assuming you've successfully created your account, it's time to hunt for the perfect event. Let's explore the site and find something you'll love!

1. Find the Event Ticket Purchase in menu bar

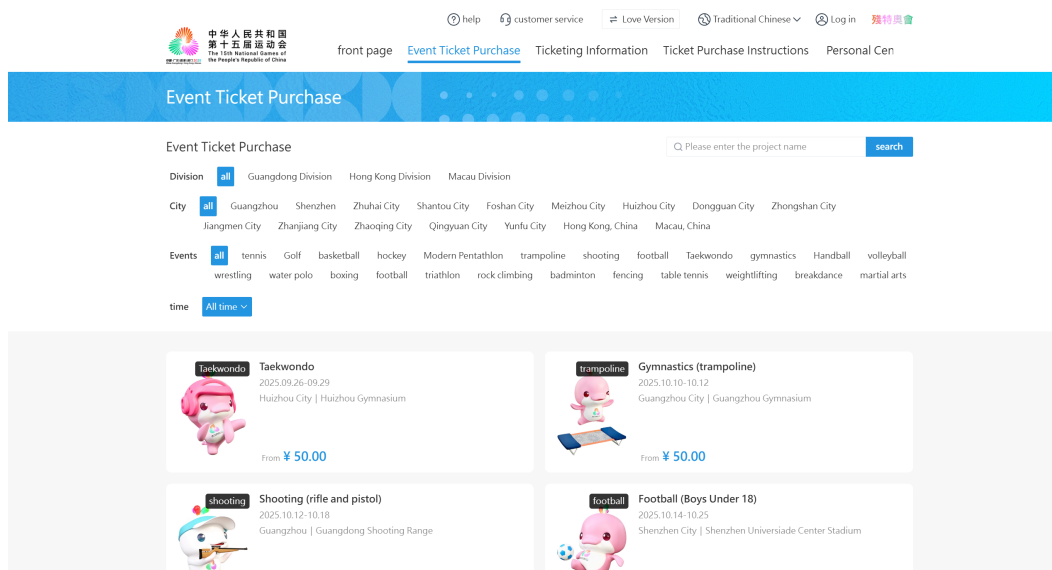

On the homepage, look for the **Event Ticket Purchase** button in the menu bar (translated to English after you've set up the browser translation).

Click it to start browsing events.

2. Search or Filter Events

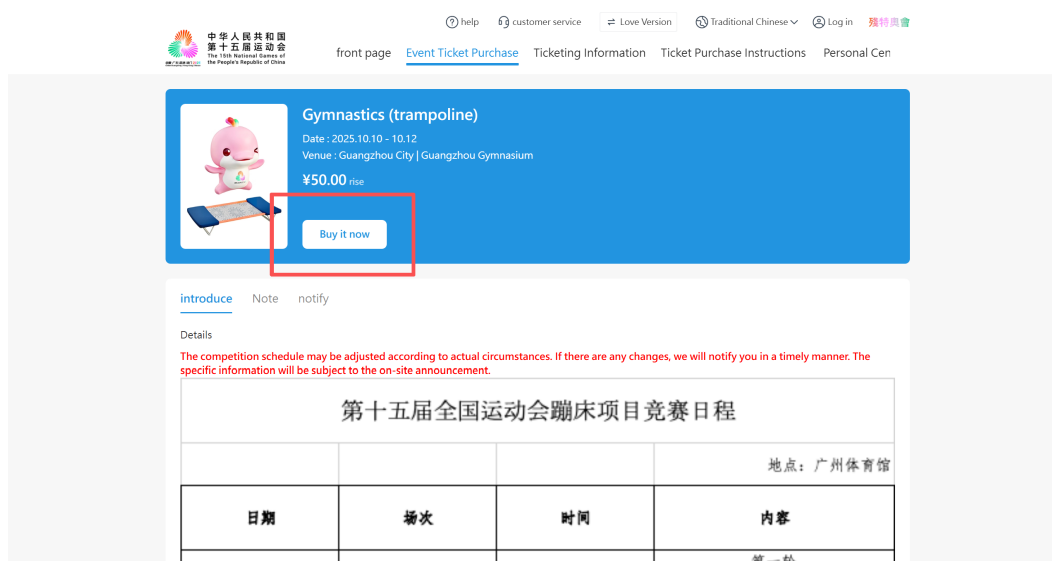

Use the search bar or filters (like division, location, or event type) to find events that suit you. Browse through the list to spot.

click the event item from the events list to go to the detail page

3. Select and Buying Your Ticket

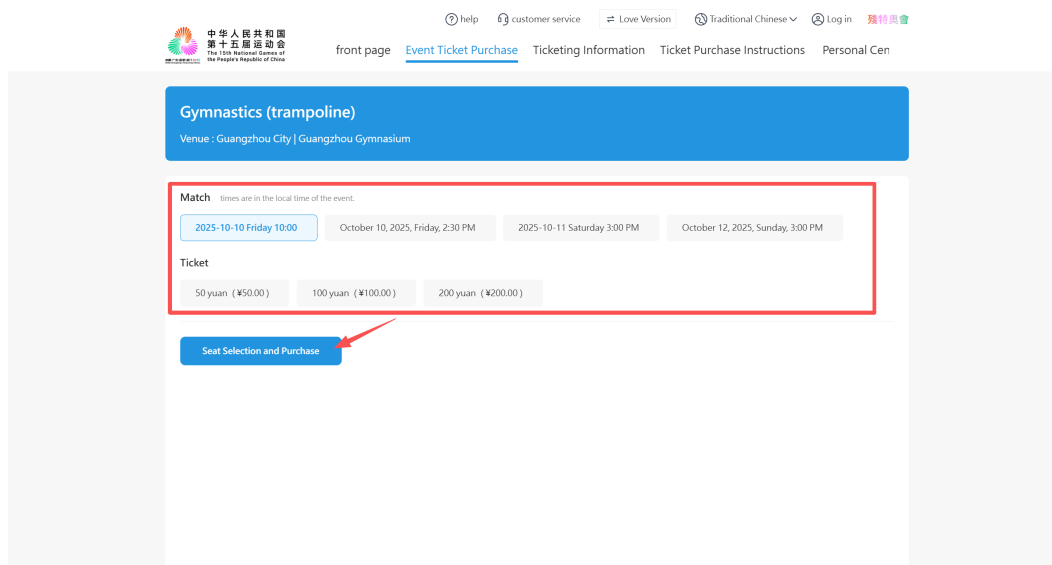

Click the **Buy it now** button on the detail page to kick off the ticket purchase process.

4. Choose the schedule

You've found your event! Now let's walk through the ticketing process to secure your spot with the perfect seats.

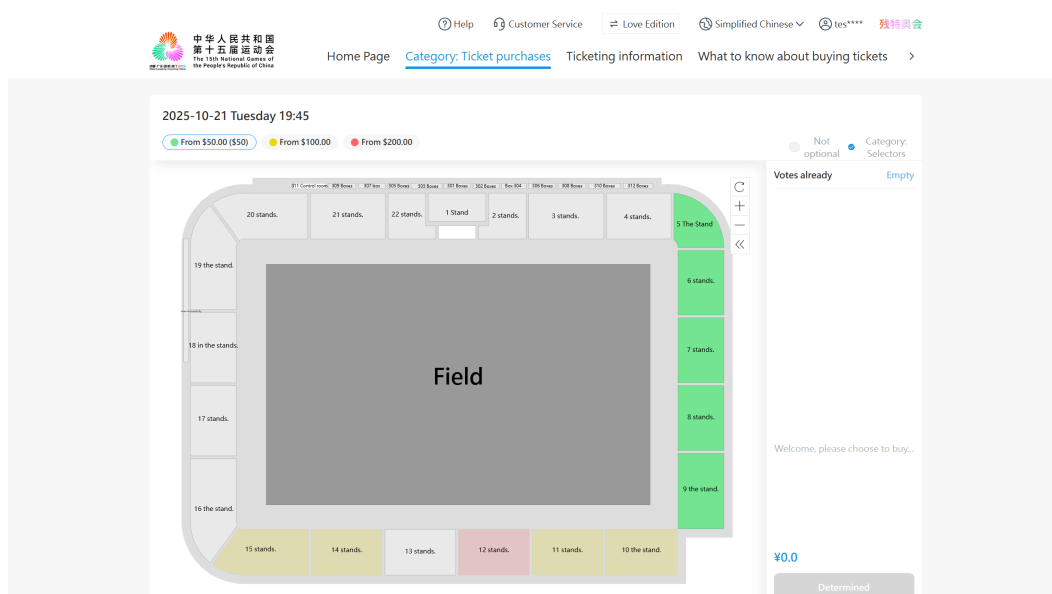

- Now you're in the ticketing process! Choose the event time slot and ticket type (e.g., "¥50" or "¥100" or "¥200"). Then click the **Seat Selection and Purchase** button to move forward.

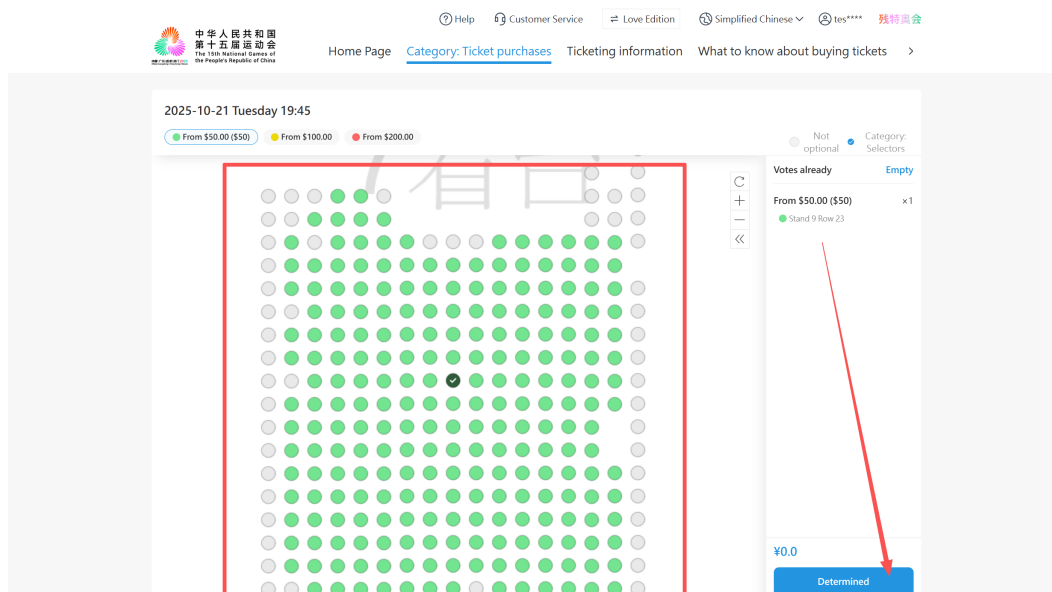

Choose **Event Time** and **Ticket Type**

5. Choose Your Seats

- You will see a floor plan and the first step is to select the ticket zone that you have selected in the previous ticket type, for example this is a green ticket so select any green zone.
- It will show you all available seats based on the ticket type you have selected.
- Add the seat(s) you want and determined.

Select the ticket zone

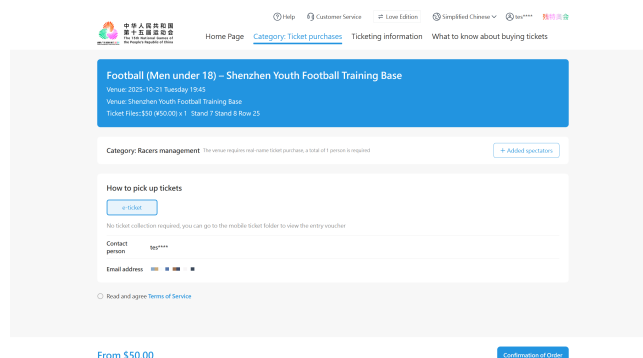

Add the seat

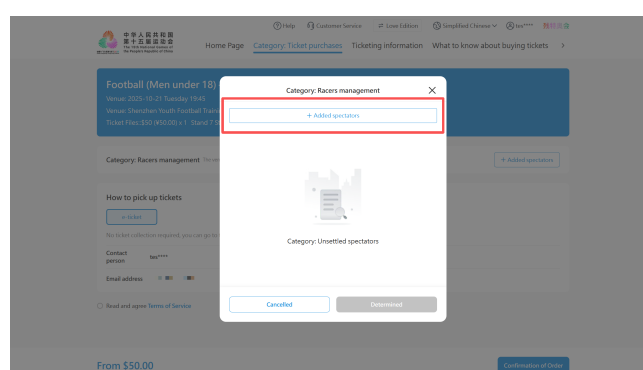

6. Add Spectator ID Information

After selecting seats, according to the current laws and regulations and the requirements of the public security department for the real-name system of large-scale activities, you are required to fill in the real information of each spectator.

- Click **Added spectators**

- If you don't have any spectator records yet,
- Click **Added spectators** to add new.

- Then fill in the requested spectator real information and determined.

Added spectators

According to the current laws and regulations and the requirements of the public security department for the real-name system of large-scale activities, please fill in the real information of the spectators and authorize the system to perform real-name verification. We will not collect and use your personal information for other purposes without your explicit authorization.
